BILL REQUEST - CODE REVISER'S OFFICE

- BILL REQ. #: H-0382.4/19 4th draft
- ATTY/TYPIST: ML:akl
- BRIEF DESCRIPTION: Reducing pollution from plastic bags by establishing minimum state standards for the use of bags at retail establishments.

1 AN ACT Relating to reducing pollution from plastic bags by 2 establishing minimum state standards for the use of bags at retail 3 establishments; adding a new chapter to Title 70 RCW; creating a new 4 section; and prescribing penalties.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6 <u>NEW SECTION.</u> Sec. 1. (1) State policy has long placed waste 7 reduction as the highest priority in the collection, handling, and 8 management of solid waste. Reducing plastic bag waste holds 9 particular importance among state waste reduction efforts for a 10 number of reasons:

(a) Single-use plastic carryout bags are made of nonrenewable resources and never biodegrade; instead, over time, they break down into tiny particles. Single-use plastic carryout bags, and the particles they break into, are carried into rivers, lakes, Puget Sound, and the world's oceans, posing a threat to animal life and the food chain;

(b) Plastic bags are one of the most commonly found items that litter state roads, beaches, and other public spaces; and

19 (c) Even when plastic bags avoid the common fate of becoming 20 litter, they are a drain on public resources and a burden on 21 environment and resource conservation goals. For example, if plastic Code Rev/ML:akl 1 H-0382.4/19 4th draft

bags are disposed of in commingled recycling systems rather than as 1 garbage or in retailer drop-off programs, they clog processing and 2 sorting machinery, resulting in missorted materials and costly 3 inefficiencies that are ultimately borne by utility ratepayers. 4 Likewise, when green or brown-tinted plastic bags confuse consumers 5 6 into attempting to dispose of them as compost, the resultant plastic 7 contamination undercuts the ability to use the compost in gardens, farms, landscaping, and surface water and transportation projects. 8

9 (2) Alternatives to single-use plastic carryout bags are 10 convenient, functional, widely available, and measure as superior 11 across most environmental performance metrics. Alternatives to 12 single-use plastic carryout bags feature especially superior 13 environmental performance with respect to litter and marine debris, 14 since plastic bags do not biodegrade.

(3) As of 2019, many local governments in Washington have shown leadership in regulating the use of single-use plastic carryout bags. This local leadership has shown the value of establishing state standards that will streamline regulatory inconsistency and reduce burdens on covered retailers caused by a patchwork of inconsistent local requirements across the state.

(4) Therefore, in order to reduce waste, litter, and marine pollution, conserve resources, and protect fish and wildlife, it is the intent of the legislature to:

24 (a) Prohibit the use of single-use plastic carryout bags;

(b) Require a pass-through charge on recycled content paper carryout bags and reusable carryout bags made of film plastic, to encourage shoppers to bring their own reusable carryout bags;

28

(c) Require the use of recycled content bags; and

(d) Encourage the provision of reusable and recycled contentpaper carryout bags by retail establishments.

31 <u>NEW SECTION.</u> Sec. 2. The definitions in this section apply 32 throughout this chapter unless the context clearly requires 33 otherwise.

(1) "Carryout bag" means any bag that is provided by a retail establishment at home delivery, the check stand, cash register, point of sale, or other point of departure to a customer for use to transport or carry away purchases.

38 (2) "Compostable" means that a product that is capable of being 39 completely broken down in a timely manner, consistent with the Code Rev/ML:akl 2 H-0382.4/19 4th draft standard specification as established in section 3(6) of this act, into a material safe and desirable as a soil amendment.

3 (3) "Compostable film bag" means a compostable bag that is 4 designed and suitable only to be used once and disposed of or 5 composted.

6

(4) "Department" means the department of ecology.

7 (5) "Pass-through charge" means a charge to be collected and 8 retained by retailers from their customers when providing recycled 9 content paper carryout bags and reusable carryout bags made of film 10 plastic.

(6) "Recycled content paper carryout bag" means a paper carryout bag provided by a store to a customer at the point of sale that meets the requirements in section 3(6)(a) of this act.

14 (7) "Retail establishment" means any person, corporation, 15 partnership, business, facility, vendor, organization, or individual 16 that sells or provides food, merchandise, goods, or materials 17 directly to a customer including home delivery, temporary stores, or 18 vendors at farmers markets, street fairs, and festivals.

19 (8) "Reusable carryout bag" means a bag made of cloth or other 20 durable material with handles that is specifically designed and 21 manufactured for long-term multiple reuse and meets the requirements 22 of section 3(6)(b) of this act.

(9) "Single-use plastic carryout bag" means any bag that is made from plastic that is designed and suitable only to be used once and disposed.

(10) "Standard specification" means the entire American society
 for testing and materials (ASTM) specification and associated test
 methods that must be met for:

(a) ASTM D6400 - standard specification labeling of plastics
 designed to be aerobically composted in municipal or industrial
 facilities, as it existed as of January 1, 2019; or

32 (b) ASTM D6868 - standard specification for labeling of end items 33 that incorporate plastics and polymers as coatings or additives with 34 paper and other substrates designed to be aerobically composted in 35 municipal or industrial facilities, as it existed as of January 1, 36 2019.

37 <u>NEW SECTION.</u> Sec. 3. (1) Except as provided in this section and 38 section 4 of this act, a retail establishment may not provide to a 39 customer or a person at an event:

3

Code Rev/ML:akl

H-0382.4/19 4th draft

- 1
- (a) A single-use plastic carryout bag; or

2 (b) A paper carryout bag or reusable carryout bag made of film 3 plastic that does not meet recycled content requirements.

4 (2)(a) A retail establishment may provide a reusable carryout bag 5 or a recycled content paper carryout bag of any size to a customer at 6 the point of sale.

7 (b) A retail establishment must collect a pass-through charge of 8 not less than ten cents for every recycled content paper carryout bag 9 or reusable carryout bag made of film plastic it provides, except as 10 provided in subsection (5) of this section and section 4 of this act. 11 A retail establishment may make reusable carryout bags available to 12 customers through sale.

13 (c) A retail establishment must keep all revenue from pass-14 through charges. The pass-through charge is a taxable retail sale. A 15 retail establishment must show all pass-through charges on any 16 receipts provided to customers.

17 (3) Carryout bags provided by a retail establishment do not 18 include:

19

(a) Bags used by consumers inside stores to:

(i) Package bulk items, such as fruit, vegetables, nuts, grains,
 candy, greeting cards, or small hardware items such as nails, bolts,
 or screws;

(ii) Contain or wrap frozen foods, meat, fish, flowers, potted plants, or other items where dampness or sanitation might be a problem;

26

(iii) Contain unwrapped prepared foods or bakery goods;

27

(iv) Contain prescription drugs; or

(v) Protect a purchased item from damaging or contaminating other
 purchased items when placed in a recycled content paper carryout bag
 or reusable carryout bag; or

(b) Newspaper bags, door hanger bags, laundry/dry cleaning bags,
 or bags sold in packages containing multiple bags for uses such as
 food storage, garbage, or pet waste.

(4) (a) Any compostable film bag that a retail establishment provides to customers for products, including for products bagged in stores prior to checkout, must be tinted green or brown, and be labeled "compostable," as required under subsection (6) (c) (i) of this section.

39 (b) A retail establishment may not use or provide polyethylene or40 other noncompostable plastic bags:

Code Rev/ML:akl

H-0382.4/19 4th draft

4

(i) That are tinted green or brown for bagging of customer
 products in stores, as carryout bags, or for home delivery;

3 (ii) To customers to bag products in stores, as a carryout bag, 4 or for home delivery that is labeled with the term "biodegradable," 5 "compostable," "degradable," "decomposable," "oxo-degradable," or any 6 similar terms, or in any way imply that the plastic bag will break 7 down, fragment, biodegrade, or decompose in a landfill or other 8 environment.

9 (5) Except as provided by local regulations in effect as of 10 January 1, 2019, a retail establishment may provide a bag restricted 11 under subsections (1) and (4) of this section from existing inventory 12 until January 1, 2020. The retail establishment, upon request by the 13 department, must provide purchase invoices, distribution receipts, or 14 other information documenting that the bag was acquired prior to the 15 effective date of this section.

16

17

(6) For the purposes of this section:

(a) A recycled content paper carryout bag must:

18 (i) Contain an average of forty percent postconsumer recycled 19 materials;

(ii) Be capable of composting, consistent with the timeline and specifications of ASTM D6868, as it existed as of January 1, 2019; and

23 (iii) Display the minimum percentage of postconsumer content in 24 print on the exterior of the paper bag.

25

(b) A reusable carryout bag must:

(i) Have a minimum lifetime of one hundred twenty-five uses,
which for purposes of this subsection means the capacity to carry a
minimum of twenty-two pounds one hundred twenty-five times over a
distance of at least one hundred seventy-five feet;

30 (ii) Be machine washable or made from a durable material that may 31 be cleaned or disinfected; and

32 (iii) If made of film plastic:

33 (A) Be made from a minimum of forty percent postconsumer recycled 34 material;

35 (B) Display the minimum percentage of postconsumer content in 36 print on the exterior of the plastic bag;

37 (C) Have a minimum thickness of no less than four mils; and

38 (D) Display wording that the bag is reusable.

39 (c) A compostable film bag must:

5

1 (i) Be labeled as "compostable" consistent with green guides 2 published by the United States federal trade commission (16 C.F.R. 3 part 260, as published October 11, 2012) or similar formal guidance 4 issued by the federal trade commission regarding misleading 5 environmental claims; and

6 (ii) Meet the standard specification established in ASTM D6400,
7 as it existed as of January 1, 2019.

8 (d) Food banks and other food assistance programs are not retail 9 establishments, but are encouraged to take actions to reduce the use 10 of single-use plastic carryout bags.

NEW SECTION. Sec. 4. It is a violation of section 3 of this act 11 for any retail establishment to pay or otherwise reimburse a customer 12 for any portion of the pass-through charge; provided that retail 13 establishments may not collect a pass-through charge from anyone with 14 15 a voucher or electronic benefits card issued under the women, infants, and children (WIC) or temporary assistance for needy 16 17 families (TANF) support programs, or the federal supplemental nutrition assistance program (SNAP, also known as basic food), or the 18 Washington state food assistance program (FAP). 19

20 <u>NEW SECTION.</u> Sec. 5. (1) The department may adopt rules as 21 necessary for the purpose of implementing, administering, and 22 enforcing this chapter.

23 (2) The enforcement of this chapter must be based primarily on 24 complaints filed with the department. The department must establish a forum, which may include a complaint form on the department's web 25 site, a telephone hotline, or a public outreach strategy relying upon 26 27 electronic social media to receive complaints that allege violations. The department must provide education and outreach activities to 28 29 inform retail establishments, consumers, and other interested individuals about the requirements of this chapter. 30

(3) A violation of this chapter is a class 1 civil infraction
 under chapter 7.80 RCW. Each calendar day of operation or activity in
 violation of this chapter comprises a new violation.

34NEW SECTION.Sec. 6. (1) Except as provided in subsection (2)35of this section, a city, town, county, or municipal corporation may36not implement a local carryout bag ordinance. Any carryout bag37ordinance that is in effect as of the effective date of this sectionCode Rev/ML:akl6H-0382.4/19 4th draft

1 is preempted by this chapter, as of the effective date of this 2 section.

3 (2)(a) A city, town, county, or municipal corporation may, by 4 ordinance, increase the amount of the minimum pass-through charge 5 established in section 3(2)(b) of this act.

6 (b) A city, town, county, or municipal corporation ordinance in 7 effect as of January 1, 2019, is not preempted until January 1, 2020.

8 <u>NEW SECTION.</u> Sec. 7. If specific funding for the purposes of 9 this act, referencing this act by bill or chapter number, is not 10 provided by July 1, 2019, from the waste reduction, recycling, and 11 litter control account for purposes of implementing the education and 12 outreach activities required under section 5 of this act, then this 13 act is null and void.

14 <u>NEW SECTION.</u> Sec. 8. If any provision of this act or its 15 application to any person or circumstance is held invalid, the 16 remainder of the act or the application of the provision to other 17 persons or circumstances is not affected.

18 <u>NEW SECTION.</u> Sec. 9. Sections 1 through 6 of this act 19 constitute a new chapter in Title 70 RCW.

--- END ---

7
